

ARBORTECH offers durable and versatile forestry bodies that add up to the best return on your investment, in the shortest amount of time. Established in 1982, ARBORTECH is one of the leading national manufacturers of truck bodies for arborists. We were the first in the industry to use galvanized steel to enhance the durability and corrosion resistance of our forestry equipment. As a result, we've created a heavy-duty line of products, including chip bodies and our versatile removable roof chip bodies, which are built to outlast the competition.

Truck Mounted Tool Boxes Add Storage, Flexibility

ARBORTECH offers truck tool boxes in an L-shaped configuration to maximize storage space on our forestry bodies. This helps to ensure the tools you need are always easily accessible at every job site.

Standard Tool Box Features Include:

- Space-efficient, L-shaped design
- Adjustable shelves and eight rope hooks
- Stainless steel T-handle latches
- Recessed doors with fully concealed hinges
- 3-point locking system for optimum security
- Clip-on type automotive door seals

Optional / Package:

Ultra Secure Anti-Theft Tool Boxes raise the bar on security to protect your valuable tools and equipment when stored away. To learn more visit: arbortechchipbodies.com/anti-theft

Standard reinforced door panels with durable T' locking latches

Removable Roof Bodies Offer Maximum Versatility With One Investment

ARBORTECH'S removable roof body (RRB) is the most versatile forestry body available. Featuring removable roof, our RRB easily converts from a chip truck to a dump truck – providing a unique Two-In-One Advantage. Equipped with an ARBORTECH L-shaped tool box and Ladder box, our RRB provides ample room for tools and supplies.

Urban Aerial Body Packages Provide Functionality and Agility in A Single Vehicle

ARBORTECH's urban aerial body packages (UAB) give tree care professionals maximum functionality in a single forestry unit. With body configurations engineered for vehicle classes 5 thru 7, and with aerial devices, our aerial body packages are constructed with all the heavy-duty features included in our FRB and RRB models. Toolboxes storage is integrated into each package providing plenty of room for tools and equipment.
